Which "half" you get

makes all the difference

TEL: 518.348-2079

At Hedley & Co., PLLC, we are qualified to provide financial information and

assistance to people going through a divorce.

Divorce Financial Planning can help determine both the short-term and long-term financial impact of a proposed divorce settlement and help devise alternative settlement proposals. By examining and analyzing the financial issues of a divorce, we provide our clients and their lawyers with data to help strengthen their case. Through the use of a **Certified Divorce Financial Analyst® (CDFA™)**, your team will include someone who is skilled in analyzing and providing expertise related to the tax and financial issues of divorce.

The role of the CDFA™ is to assist the client and his/her lawyer to understand how the financial decisions he/she makes today will impact the client's financial future. Including a CDFA™ with over 25 years of experience in the tax and financial industry as part of your team is essential to achieving your financial security.

The use of a CDFA™ may even decrease the total cost of your divorce by reducing the amount of time and expense of different proposed legal settlements going between attorneys.
